

HOW WOULD YOU SPEND \$150,000?

BE A CHANGE MAKER AND HELP YOUR COMMUNITY CREATE SOLUTIONS!

The Central New York Community Foundation is pleased to announce a participatory budgeting project that will use \$150,000 to increase lead testing of children and homes, and you can help!

Join us this fall in learning how to eradicate childhood lead poisoning. Hear from county and city officials, community leaders and residents as we share stories, expertise and ideas, develop proposals and vote on projects to implement.

To participate, scan the QR Code or contact Qiana Williams at QWilliams@cnycf.org.

SCAN TO JOIN!

BRAINSTORM IDEAS

Participants will identify spending ideas and select budget delegates to represent their neighborhoods

DEVELOP PROPOSALS

With help from experts, the delegates transform the initial ideas into concrete project proposals

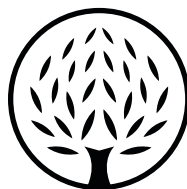

VOTE

Community members vote on which projects to fund

FUNDING DISPERSED

The Community Foundation disperses funding and chosen projects are implemented
